

**TENURE TRACK FACULTY OPENINGS
FALL 2022**

The Department of Mechanical Engineering at Manhattan College seeks outstanding applicants for a tenure-track appointment at the Assistant or Associate Professor level, with a start date in August 2022. At least one candidate will be hired with a specialization in thermal-fluid sciences, and at least one candidate will be hired with a specialization in solid mechanics/systems. Special attention will be given to candidates with an aerospace background.

The successful candidate must hold a Ph.D. in Mechanical Engineering or a related field, demonstrate excellence in academic research, and a proven commitment to teaching and advising students. We seek faculty members with a strong commitment to teaching and mentoring who will create a climate that embraces excellence and diversity, to attract and retain a diverse, talented student body. Manhattan College and its faculty view research scholarship and education as mutually supportive activities. A successful candidate must demonstrate plans for research that integrate teaching and undergraduate student participation with their scholarly interests. This candidate must also be committed to the teacher-scholar model at a primarily undergraduate institution. Manhattan College Mechanical Engineering faculty are expected to maintain high-quality teaching, an active and productive research program, and apply for external grants when appropriate.

This is an excellent time to join the Department of Mechanical Engineering. Having undergone significant growth over the last decade, the department has started to offer a concentration in Biomechanics at the undergraduate level, and an undergraduate concentration in Aerospace is being finalized. These concentrations are in addition to the nine concentrations that are currently being offered in the graduate program.

Manhattan College is a Catholic coeducational institution of higher learning in the Lasallian tradition of excellence in teaching and research, respect for individual dignity, and commitment to social justice inspired by the innovator of modern pedagogy, John Baptist de La Salle. Manhattan College offers degree programs in the liberal arts, business, education, engineering, and science. The College has approximately 3,500 full and part-time undergraduate and graduate students enrolled in over 40 fields of study and is committed to excellence in teaching a diverse student body and preparing students for successful careers and fulfilling lives. Manhattan College is ranked 13th in US News & World Report's Best Regional Universities in the North and is recognized among the top colleges in the region for undergraduate teaching and veterans.

Manhattan College's tree-lined campus is located in the Riverdale neighborhood of the Bronx, adjacent to Van Cortlandt Park. Our New York City location offers easy access to all of the world class cultural, artistic, educational, and business activities.

Applications will be accepted until positions are filled or December 15, 2021.

Interested candidates must complete an online faculty application:

[Thermal/Fluid Sciences](#) or [Solid Mechanics/Systems](#)

A detailed curriculum vitae, descriptions of teaching and research interests, and the names and addresses of three references should be uploaded as .pdf documents via the on-line application. To ensure full consideration, applications should be received by December 15, 2021, but the search will remain open until the position is filled. Please contact mechdept@manhattan.edu with any questions.

Manhattan College is an Equal Opportunity, Affirmative Action Employer with a strong commitment to racial, cultural and gender diversity. Manhattan College welcomes applications from women, members of minority groups, and those attracted to a college with a Catholic identity.
